

# Manor Catio Netting

## 1.8m Cat Enclosure Instructions

### Welcome

Congratulations on your purchase of the Manor Catio Netting Cat Enclosure! Perfect for patios or balconies, it's made from durable reinforced cat netting and is portable and suitable for indoor and outdoor use. Assembly is straightforward with no tools needed.

### Preparation

- Check that you have all the required parts.
- Set up the enclosure on a flat surface.
- Ensure all connectors are securely locked for stability and safety.

### Parts List

3-way connector

P2

P3

Netting

Shade sail

### Construction

#### Step 1: Connect P2 & P3

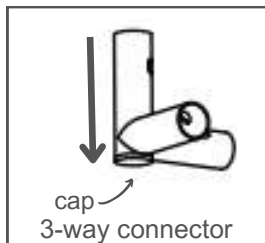

Locate and connect the small end of P2 with the bigger end of P3 so the pins are at either end. (12 joined poles)

#### Step 2: Assemble the Base of the Frame.

Attach 4 of the newly joined poles (P2+P3) to 4 of the 3-way connectors to create the base frame.

**NOTE:** When attaching the poles to the 3-way make sure the caps are facing down and be sure to align the pin lock with the holes and ensure poles click securely into place.

### Step 3: Side Poles

Connect four remaining poles with the 3-way connectors at the base.

**NOTE:**

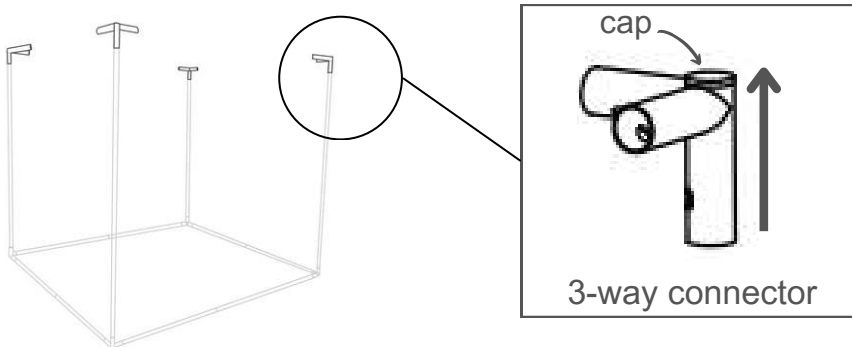

When attaching the 3-way, make sure the caps are facing up on the top of the frame.

### Step 4: 3-way Connectors

Connect the remaining 4x 3-way connectors to the corners.

**NOTE:** Be sure to align the pin lock with the holes and ensure poles click securely into place.

### Step 5: Complete the Frame

Connect the remaining poles to complete the frame.

### Step 6: Adding the Netting

Slip the net over the frame, ensuring the corners of the net align with the corners of the frame.

Ensure it's even on all sides (to prevent it getting stuck) slowly lower the net, careful not to snag the net on the connector pins and adjust each side as you go.

#### **NOTE:**

Ensure the zipper on the net is positioned on the right side of the long edge of the enclosure, and the thick edge seam is on the outside.

### Step 7: Securing the netting, adding the shade sail and zip ties

Now that you have positioned the net, secure it to the frame using the Velcro and buckles.

We have included 12 zip ties which can be used to secure the enclosure firmly. The Zip ties can also be used to add the shade sail which can be attached in any position you want.
