

## Oasis Catio Netting - 2.2m Assembly Guide

### Welcome

Congratulations on your purchase of the Oasis Cat Enclosure! Perfect for patios or balconies, it's made from durable reinforced cat netting and is portable and suitable for indoor and outdoor use. Assembly is straightforward with no tools needed.

### Preparation

- Check that you have all the required parts.
- Set up the enclosure on a flat surface.
- Ensure all connectors are securely locked for stability and safety.

### Parts List

3-way connector

4-way connector

Netting

Shade sail

Zip ties

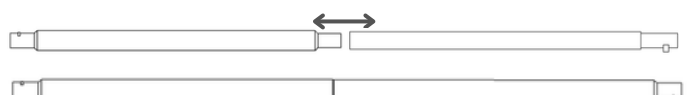

### Construction

#### Step 1:

#### Connect P2 & P3 / Connect P5 & P6

Locate and connect P2 and P3 (8 joined poles)

Locate and connect P5 and P6 (4 joined poles)

**NOTE:** Be sure to align the pin lock with the holes and ensure poles click securely into place.

## Oasis Catio Netting - 2.2m Assembly Guide

### Step 2:

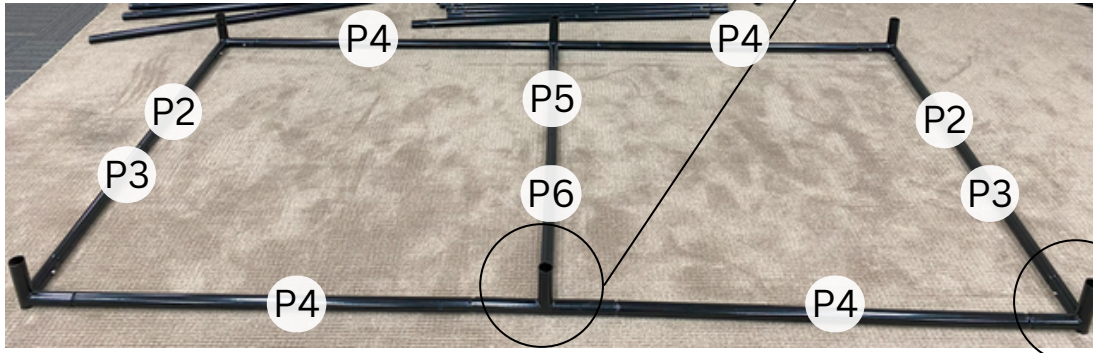

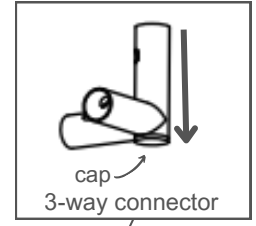

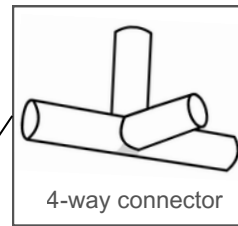

#### Assemble the base of the frame.

**PARTS:**

- 4 x 3-way connectors
- 2 x 4-way connectors
- 2 x P2+P3
- 4 X P4
- 1 x P5+P6

Attach the newly joined poles and 4x P4 to the 4x 3-way connectors creating the corners of the frame.

Use 2x 4-way connectors to connect the middle of the frame.

**NOTE:**

When attaching the poles to the 3-way and 4-way connectors, make sure the caps are facing down on the base frame.

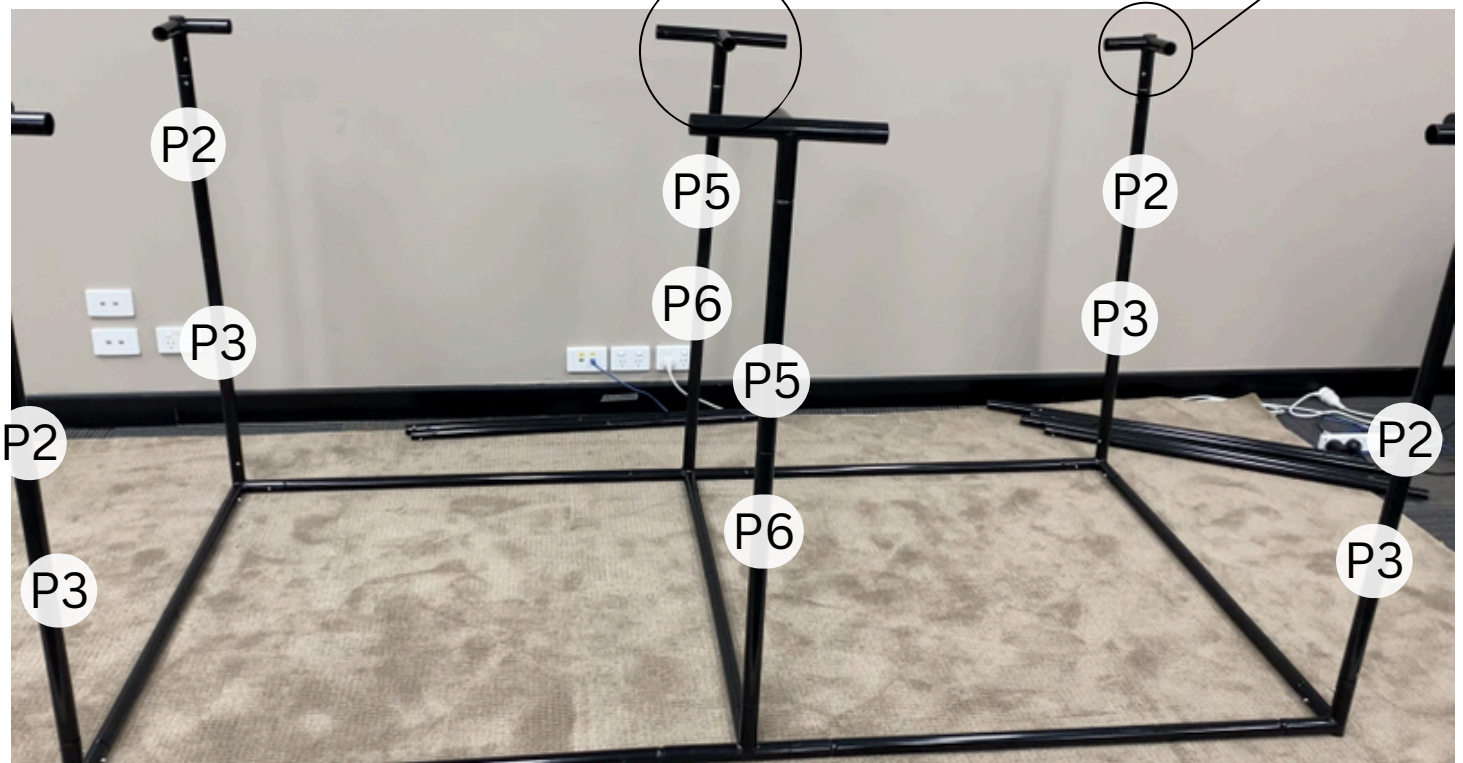

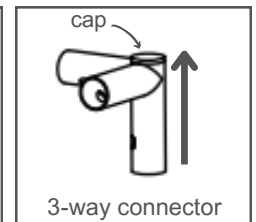

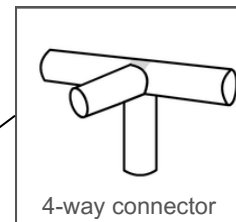

### Step 3:

#### Construct the frame sides and attach the top connectors.

**PARTS:**

- 4 x P2+P3
- 2 x P5+P6
- 4 x 3-way connectors
- 2 x 4-way connectors

To construct the sides, connect P2+P3, and P5+P6 with the base connects and add the remaining connectors on the top into the base.

**NOTE:**

When attaching the 3-way and 4-way connectors, make sure the caps are facing up on the top of the frame.

### Step 4: Complete the frame

**PARTS:**

- 2 x (P2+P3)
- 1 x (P5 + P6)
- 4 x P4

Connect the remaining poles to complete the frame.

### Step 5: Adding the netting

**PARTS:**

- Net

Slip the net over the frame, ensuring the corners of the net align with the corners of the frame. Ensure it's even on all sides (to prevent it getting stuck) slowly lower the net, careful not to snag the net on the connector pins and adjust each side as you go.

**NOTE:**

Ensure the zipper on the net is positioned on the right side of the long edge of the enclosure, and the thick edge seam is on the outside.

### Step 6: Securing the net

**PARTS:**

- Shade sail
- Zip ties

Now that you have positioned the net, secure it to the frame using the Velcro and buckles.

We have included 12 zip ties which can be used to secure the enclosure firmly. The Zip ties can also be used to add the shade sail which can be attached in any position you want.
